

## **Nobleford Skate Park**

### History

The Village-appointed 2004 Environment Recreation and Parks Committee included a Skate Park track upgrade in the Village recreation plan that was adopted by Village Council.

In 2005, the Village constructed the \$60,000 Skate Park by the Community Complex. The Village received a Community Initiative Program Grant for \$32,700 from the Province of Alberta. Agri-Tech donated \$15,700 to the project and there were also private donations. Thanks to Provincial funding, volunteerism and corporate citizenship, **no Nobleford property tax dollars** were used to fund the project. There was a small surplus of funds remaining upon completion and put in reserve for future recreation projects.
